

HOW TO BECOME A BASIC MEMBER and GET SETTLED IN

- 1) Visit www.versatilephd.com and click “Join Now.” This will take you to a registration form. Fill out all the required questions and make your own judgments about the optional questions.
- 2) Watch your inbox for a confirmation email containing a link to activate your membership. Click on the link. If the email does not come, check your spam folder. If it’s not there, email webmaster@versatilephd.com for help.
- 3) Once you are registered, visit the Main Forum (from the home page, click on Community). Peruse current discussions and get acquainted with the format. Feel free to post something if you like. Everyone is welcome to participate.
- 4) When you first register, the default setting is to receive an email for each individual posting by members. This allows you to follow the conversation without remembering to visit the website. However, there are two other options: daily diges (one email containing all the posts from that day)t, or no emails at all. To access these options, visit your Profile, click Settings, and click on the Notifications tab. You can also choose whether or not you want to receive job postings by email.

The Terms of Service, Privacy Policy and Code of Conduct are all available in the About section of the website, along with a FAQ, accessible to all.

HOW TO PROMOTE THE VERSATILE PhD TO YOUR GRADUATE STUDENTS

All institutions are invited to email their students about The Versatile PhD. Please make sure the following critical information is included:

- The Versatile PhD is a free web-based community for humanists and social scientists interested in non-academic careers. The URL is www.versatilephd.com.
- It is a private, confidential site where registration is required but you do not have to use your real name or the name of your university. The registered-members-only parts of the site are invisible to search engines. Only members may read or post. A strong confidentiality policy forbids the forwarding of posted material to non-members. In short--the Versatile PhD is a *safe environment* where you can learn about non-academic careers.

Subscribing institutions will receive pre-written email messages and other marketing materials that can be edited as appropriate and used to market the Premium Content Area to students.
